

Category Policy Addendum: Toys

KARTWAY CUSTOMER OPERATIONS POLICY HANDBOOK ##

Document Ref: COP-ADD-TOY-004 ### Category-Specific Policy

Addendum: Toys & Games (CAT-TOY-09) Effective Date:

October 24, 2024 Policy Owner: Julian Vance, VP of Customer

Experience & Policy Authorized By: Marcus Thorne, Director of

Quality Assurance

1.0 Scope and Definition * 1.1 This addendum establishes the mandatory customer support protocols, return guidelines, restocking fees, and warranty parameters specifically for products listed under the "Toys & Games" super-category (ID: CAT-TOY-09) on the Kartway marketplace. *** 1.2** All transactions within CAT-TOY-09 are governed by this document. Where clauses in this addendum conflict with the general Kartway Standard Returns Policy (COP-04.1), this addendum shall take precedence.

2.0 Return Windows and Deadlines * 2.1 General Toy Return Window: Notwithstanding the standard Kartway 30-day return policy, customers may initiate a return for eligible toys within 45 calendar days from the date of confirmed carrier delivery. *** 2.2 Semi-Perishable Toy Exception:** Products classified under sub-category CAT-TOY-PLAYDOUGH (including modeling clays, slimes, kinetic sands, and organic play doughs) are subject to a shortened return window of 10 calendar days from the date of confirmed carrier delivery. Returns initiated on day 11 or later for this sub-category must be systematically blocked by support agents.

3.0 Condition Requirements and Packaging * 3.1 Original Packaging Mandate: Original retail packaging is strictly mandatory for all toy returns. If the original retail box, cardboard backing, or blister pack is missing, the return request must be denied. *** 3.2 Collectible Toys (Sub-category CAT-TOY-COLL):** Action figures, trading card boxes, and limited-edition board games must be returned in "Mint-in-Box" condition. *** 3.2.1** If the factory shrink-wrap or circular clear wafer seals have been cut, broken, or peeled, the item is no longer considered collectible. *** 3.3 Multi-Piece Board Games:** Board games containing more than 50 individual pieces (cards, tokens, meeples, or dice) are ineligible for return once the inner factory-sealed plastic bags containing the components have been opened. Support agents must request photographic proof of the sealed inner components before issuing a Return Merchandise Authorization (RMA).

4.0 Restocking Fees * 4.1 Opened Box Fee: A flat 18% restocking fee shall be deducted from the refund amount for any non-defective toy returned with broken outer factory seals but intact internal components. *** 4.2 Collectible Depreciation Fee:** If a collectible toy (under clause 3.2) is returned with damaged packaging that does not compromise the toy itself (e.g., dented corners, creased cardbacks), a 40% depreciation fee must be applied to the

refund. * 4.3 Exemption: Restocking fees are waived if the item is proven to have arrived damaged, or if the return is due to a verified shipping error by Kartway Fulfillment Services (KFS).

5.0 Hazardous and Perishable Material Handling * 5.1 Battery-Operated Toys: *

5.1.1 Toys shipped with pre-installed or loose lithium-ion or button-cell batteries (e.g., CR2032) must be returned exclusively via ground transport. * 5.1.2

Support agents must generate Return Label "HAZ-TOY-B" which automatically restricts the shipment to ground freight. Air transport is strictly prohibited due to aviation safety regulations. * 5.2 Liquid and Chemical Toy Components: *

5.2.1 Bubble solutions, science kit chemicals, toy cosmetics, and liquid paints must be completely sealed in their original, unpunctured vessels. * 5.2.2 If any

liquid seal is punctured, the item is classified as bio-hazardous and cannot be physically returned to a Kartway fulfillment center. * 5.2.3 In cases where a

punctured liquid toy component is reported as damaged upon arrival, agents must instruct the buyer to dispose of the item locally and may issue a maximum \$15.00 gesture-of-goodwill credit to the customer's Kartway balance, rather than processing a standard refund.

6.0 Warranty and Replacements * 6.1 Motorized and Ride-On Toys: Ride-on toys

(including electric cars, scooters, motorized hoverboards, and battery-powered dirt bikes) are backed by a 120-day Kartway parts-replacement warranty starting from the delivery date. * 6.1.1 This warranty covers electrical failures, battery

degradation below 60% capacity, and motor malfunctions. * 6.1.2 It does not

cover cosmetic damage, tire wear, or damage resulting from exceeding the

manufacturer's stated weight limit. * 6.2 General Toys Structural Warranty:

Non-electronic toys (e.g., plastic playsets, wooden blocks, construction sets)

are covered by a 60-day structural warranty against snapping, cracking, or joint failure under normal play conditions. * 6.3 Claims Processing: All warranty

claims under this section must be routed through the specialized Toy Warranty Desk (contact: `warranty-toys@kartway-ops.com`) for diagnostic review prior to parts dispatch or replacement unit authorization.
